

Sirian Mysteries

Sirius is a binary star consisting of Sirius A, and a faint white dwarf companion named Sirius B, in esoterica sometimes it is said that Sirius C is also a third star.

The heliacal rising of Sirius, when it is first visible rising before the Sun, was highly significant to the ancient Egyptians as it marked the beginning of the annual flooding of the Nile

Sirians are often in the second and third density which means dimensions 4,5,6,7,8 and 9

Sirius A

- Service to others and anunnakis, and some anunnakis that have rehabilitated and are service to others.
- Blue sirians that look like beings from Sirius B that serve the law of one.
- Fallen angelic anu (anunnakis) “Bipedal Dolphin People” of Sirius A.
- Mystery schools, serpent lineages
- Use of light language, sacred codes, ankh, egyptian past lives

Sirian Mysteries

Sirius B

Azurites are the forefathers of beings that we associated as sirians from Sirius B, they were blue-skinned land-water mammal feline-avian hominid.

Starseeds from Sirius B are connected to the second seeding of earth, as an artificial portal bridge was constructed between the core of Sirius B, the fourth dimension where the souls were waiting to come and the Earth core at dimension two.

Council of Sirius who serve the law of one.

In egyptian times, the original pyramid of Giza was designed as a Harmonic Resonance Chamber, through which multidimensional frequency bands could be pulled in from the planetary core of Sirius B.

Cetaceans

Not regressive part of the amethyst order (Aveyon, Lyra), pale light blue, works with sound, dolphins and whales.

Annunaki lineage: bipedal dolphins, some whales, dolphins and sharks on earth.
